### Annexure II

## Residential Real estate project (RREP)

Input tax credit attributable to construction of residential and commercial portion in a Residential Real estate project (RREP), which has time of supply on or after 1<sup>st</sup> April, 2019, shall be calculated project wise for all projects which commence on or after 1st April, 2019 or ongoing projects in respect of which the promoter has not exercised option to pay central tax on construction of apartments at the rates as specified for item (ie) or (if) against serial number 3, as the case may be, in the prescribed manner, before the due date for furnishing of the return for the month of September following the end of financial year 2018-19, in the following manner:

#### Where % completion as on 31st March, 2019 is not zero or where there is 1. inventory in stock

Input tax credit on inputs and input services attributable to construction of residential (a) and commercial portion in an RREP, which has time of supply on or after 1st April, 2019, may be denoted as Tx. Tx shall be calculated as under:

Where,

- (ii) Te is the eligible ITC attributable to construction of commercial portion and construction of residential portion, in the RREP which has time of supply on or before 31st March, 2019;
- (b) Te shall be calculated as under:

$$Te = T* F_1 * F_2 * F_3 * F_4$$

Where, -

 $F_1 =$ Carpet area of residential and commercial apartments in the RREP

Total carpet areaofapartments in the RREP

(In case of a Residential Real Estate Project, value of "F1" shall be 1.)

Total carpet area of residential and commercial apartment booked on or before 31st March, 2019

 $F_2 =$ Total carpet area of the residential and commercial apartment in the **RREP** 

Such value of supply of construction of residential and commercial apartments booked on or before 31<sup>st</sup> March, 2019 which has time of supply on or before 31<sup>st</sup> March, 2019

 $F_3=$ 

Total value of supply of construction of residential and commercial apartments booked on or before 31<sup>st</sup> March, 2019

(F3 is to account for percentage invoicing of booked residential apartments)

Illustration: where one- fifth (twenty percent) of the construction has been completed,  $F_4$  shall be  $100 \div 20 = 5$ .

Explanation: "% Completion of construction as on 31<sup>st</sup> March, 2019" shall be the same as declared to the Real Estate Regulatory Authority in terms of section 4 and section 11 of Real Estate (Regulation and Development) Act, 2016 and where the same is not required to be declared to the Real Estate Regulatory Authority, it shall be got determined and certified by an architect registered with the Council of Architecture constituted under the Architects Act, 1972 (20 of 1972) or a chartered engineer registered with the Institution of Engineers (India).

- (c) The amounts 'Tx' and 'Te' shall be computed separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.
- (d) Where, Tx is positive, i.e. Te < T, the registered person shall pay, by debit in the electronic credit ledger or electronic cash ledger, an amount equal to the difference between T and Te. In this example, the promoter has procured 80 per cent. of goods and services [other than services by way of grant of development rights, long term lease of land (against upfront payment in the form of premium, salami, development charges etc.) or FSI (including additional FSI), electricity, high speed diesel, motor spirit, natural gas], from a GST registered person. However, he has procured cement from an unregistered supplier. Hence at the end of financial year, the promoter has to pay GST on cement at the applicable rates on reverse charge basis.

In this example, the promoter has procured 50 per cent. of goods and services from a GST registered person. However, he has procured sand, cement and aluminum windows, ply and commercial wood etc. from an unregistered supplier. Thus, value of goods and services procured from registered suppliers during a financial year falls short of threshold limit of 80 per cent. To fulfill his tax liability on the shortfall of 30 per cent. from mandatory purchase, the promoter has to pay GST on cement at the applicable rate on reverse charge basis. After payment of GST on cement, on the remaining shortfall of 15 per cent., the promoter shall pay tax @ 18 per cent. under RCM.
